

Research Facility Animal Health Report

AREA: FGB-39 (F39)

Report # 0909F39

FGB-39 (F39) IS OPERATED AS A:

- Elevated Barrier
 Intermediate Barrier
 Low Barrier

Please consult our website for descriptions of our barrier levels.

ORGANISMS EXCLUDED FROM ALL BARRIERS (SHIPPING STOPPED) -

If any of these organisms are found in any Research area, all shipments from the area are suspended and customers are notified.

OTHER ORGANISMS MONITORED (SHIPPING NOT STOPPED) -

All of these organisms are excluded from **elevated barriers** and most are excluded from **intermediate barriers**, but some of these organisms are currently tolerated in **low barrier** areas. When an excluded organism is found an investigation is undertaken to identify and eliminate all infected mice from the barrier. Positive results - including results from investigations - are noted in this report, but shipping from the area is not suspended.
